5.7L (350ci) Base Marine Engine (1987-1995 Replacement) GM Marine replacement marine engines are built with the same great technology and longevity as GM's automobiles. The GM Marine base marine engines that Michigan Motorz provides are the same marine engines that other leading manufacturers buy directly from GM Marine. GM Marine have the best replacement marine engines in the industry.

- Brand New GM base marine engine (standard rotation) made specifically for 1987-1995 marine engine applications. (The 1987-95 5.7L marine engine can easily be identified by 4 bolts that go in the center of the valve covers. 8 of the 12 intake manifold bolts are installed at a 90° angle on the cylinder heads; the remaining 4 center intake manifold bolts are installed at a 72° angle).
- Engine includes: engine block, cylinder heads, center-bolt valve covers, timing cover, 5-quart marine oil pan, circulation pump, harmonic balancer, spark plugs, corrosion resistant black urethane paint, and all internal parts.
- Direct replacement for 1987 thru 1995 305 ci (5.0L), 350 ci (5.7L) MerCruiser, Volvo Penta, OMC, Indmar, etc.
- One-piece rear main seal (also known as full rear main seal), mechanical fuel pump pad or electrical pump may be used.
- Rated at 270 hp @ 4800 RPM / 340 LB FT @ 3200 RPM with 4 barrel carb/intake. (actual power levels may vary depending on OEM calibration and application)
- 8 of the 12 intake manifold bolts are installed at a 90° angle to the block. (4 center bolts are installed at a 72° angle to the block).
- Opposite rotation available for an additional \$389 for flat tappet cam (see "Product Options" box above).
- One-Year (parts & labor) Written Warranty Optional gasket kit (intake, exhaust, distributor & thermostat) available for an additional \$50.00 - add this option in the "Product Options" box above. Email sales@michiganmotorz.com or call (248) 524-9600 to place your order, or for a shipping quote.
