## 5.0L Flywheel (1986 & Later Engines, 12 $\frac{3}{4}$ " diameter)

Model : 130-F

Manufacturer : GM Marine

Brand new 12 $\frac{3}{4}$ " flywheel made for 1986 and later 5.0L marine engines.

If you have an existing 5.0L marine engine with an existing 12 $\frac{3}{4}$ " flywheel made before 1986 and LATER 5.0L engine (commonly called a one-piece rear main seal or full seal), then this 12 $\frac{3}{4}$ " flywheel is required. 1986 (commonly referred to as a two-piece rear main seal or split seal) and are replacing it with a

If you have an existing 5.0L engine with an existing 14" flywheel, then you do NOT need this flywheel.

Brand new 5.0L Vortec base marine engines ship with a 14" flywheel. (The 14" flywheel may not work in some 5.0L applications because it is too large. It will not fit in the existing bell housing and the existing starter cannot engage the 14" flywheel).

This flywheel is unique to a 5.0L engine. It will only fit and install on a 5.0L engine made from 1986 to present.

When purchasing a new or remanufactured 5.0L engine, this 12 $\frac{3}{4}$ " flywheel is available for \$149.00

**Price : ~~\$299.00~~**

**Special price : \$199.00**
