Edelbrock Marine SBC - V8 Performer Intake Manifold W/BRASS (1987-95)

Edelbrock Marine SBC - V8 Performer Intake Manifold W/BRASS (1987-95)

Model : 2506

Manufacturer : Edelbrock

Edelbrock Performer RPM Marine intake manifolds are designed specifically for demanding marine applications. They feature low-rise, dual-plane design with patented runner tuning and an 180 degree firing order that you won't find with the competition. The combination boosts torque over a wide rpm range, from idle to 5,500 rpm. These manifolds also deliver improved throttle response over stock intakes and feature brass lined front water crossovers and two brass flange inserts to cover rear water openings in the cylinder heads. The brass lined crossover and inserts protect the aluminum from salt water corrosion.

- 1987-95 5.0 L + 5.7 L Marine Engine
- 4-bbl Quadrajet/Square-Bore Carb Flange
- 1500-6500 RPM Range
- Port exit dimensions: 1.14" x 1.88"
- Manifold height: 4.720 in.
- Accepts square-bore and spread-bore carbs.
- Requires electric choke carb, Has no provisions for exhaust heated chokes
- Designed for marine use only. Features brass lined front water crossovers and brass flange inserts to cover rear water openings.

Price : \$457.95
