

## Bottom Mount Marine Starter (12 $\frac{3}{4}$ " flywheel, stern drive engines)

Model : 8M0090697

Manufacturer : MerCruiser

Commonly referred to as a "high torque, gear reduction" starter, with the straight-across bolt pattern, with ONE LONG BOLT and ONE SHORT BOLT bolted straight across from each other. This starter will work as a replacement for all sterndrive I/O engine applications with a 12 $\frac{3}{4}$ " flywheel. This OEM MerCruiser starter is U.S. Coast Guard Approved and has the official Marine certified UL 1120/SAE J1171 stamp on the case. This is the exact same marine starter that MerCruiser, Volvo Penta, OMC, Marine Power, etc., use on their marine engines with 12 $\frac{3}{4}$ " flywheels. This is NOT an aftermarket "Made in China" starter.

This will work as a replacement for:

All GM 3.0L (181 ci), 5.0L (305 ci), 5.7L (350 ci) sterndrive engines with 12 $\frac{3}{4}$ " flywheels. This starter is commonly used on 3.0L marine engines from 1968-1998, 5.0L; and 5.7L engines from 1967-1984. If your existing starter has one LONG bolt and one SHORT bolt, then this is your starter.

Replaces:

MerCruiser: 50-806963A4, 50-806965A4, 50-806965A2, 50-806963A2, 50-812429A2, 50-99417A2, 50-79821A2, 50-69863A1, 50-59799, 50-46282, 50-79822A2, 50-69864A1
